

INSTRUCT™ PATIENT EDUCATION PATHWAY CARDIOMEMS™ HF SYSTEM

DIRECT-TO-PATIENT EDUCATION

- Convenient text message format
- Simple-to-understand video messages
- Designed for patients and caregivers
- Messages are stored to support repeat viewing

CARDIOMEMS™ HF SYSTEM PRE-IMPLANT EDUCATION PATHWAY

DAY 0	Welcome Message	DAY 7	What Do I Do After I Receive a CardioMEMS PA Sensor?
DAY 0	What Is Heart Failure?	DAY 8	What Do Patients Who Have the CardioMEMS HF System Have to Say About It?
DAY 1	How Do You Get Heart Failure?	DAY 9	What Do I Need to Do Before My Procedure?
DAY 2	What Are the Symptoms of Heart Failure?	DAY 10	Satisfaction Survey on the Text Message Educational Series
DAY 3	What Are the Treatment Options for Heart Failure?	DAY 30	Did You Have Your CardioMEMS PA Sensor Procedure Yet?
DAY 4	What Is the CardioMEMS™ HF System and How Does It Work?		
DAY 5	What Are the Benefits of the CardioMEMS HF System?		
DAY 6	What Is the Procedure Like for Getting a CardioMEMS™ PA Sensor?		

1

Patient is identified as a candidate for the CardioMEMS HF System

2

PRE-IMPLANT enrollment instructions are provided to the patient/caregiver

3

Patient/caregiver enrolls, and education begins immediately

TO ENROLL A PATIENT AND/OR CAREGIVER, provide them with the automated education postcard and instruct them to either scan the QR code or text **LEARN** to **1-844-HEART-34** (1-844-432-7834). They will receive one message daily for 10 days.

A DEMO SITE IS AVAILABLE for clinicians to review the pathway. Scan the QR code or text **PRE** to **737-204-2099**.

Remember that, in the demo environment, you will receive all the messages in 10 minutes, but patients will only receive the messages on the days outlined in the pathway.

Rx Only

Brief Summary: Prior to using these devices, please review the Instructions for Use for a complete listing of indications, contraindications, warnings, precautions, potential adverse events and directions for use.

CardioMEMS™ HF System Indications and Usage: The CardioMEMS™ HF System is indicated for wirelessly measuring and monitoring pulmonary artery (PA) pressure and heart rate in New York Heart Association (NYHA) Class III heart failure patients who have been hospitalized for heart failure in the previous year. The hemodynamic data are used by physicians for heart failure management and with the goal of reducing heart failure hospitalizations.

CardioMEMS™ HF System Contraindications: The CardioMEMS HF System is contraindicated for patients with an inability to take dual antiplatelet or anticoagulants for one month post implant.

CardioMEMS™ HF System Potential Adverse Events: Potential adverse events associated with the implantation procedure include, but are not limited to, the following: infection, arrhythmias, bleeding, hematoma, thrombus, myocardial infarction, transient ischemic attack, stroke, death, and device embolization.
