

2020 ABBOTT REIMBURSEMENT GUIDE

CMS Physician Fee Schedule

This document and the information contained herein is for general information purposes only and is not intended and does not constitute legal, reimbursement, coding, business or other advice. Furthermore, it is not intended to increase or maximize payment by any payer. Nothing in this document should be construed as a guarantee by Abbott regarding levels of reimbursement, payment or charge, or that reimbursement or other payment will be received. Similarly, nothing in this document should be viewed as instructions for selecting any particular code. The ultimate responsibility for coding and obtaining payment/reimbursement remains with the customer. This includes the responsibility for accuracy and veracity of all coding and claims submitted to third-party payers. Also note that the information presented herein represents only one of many potential scenarios, based on the assumptions, variables and data presented. In addition, the customer should note that laws, regulations, coverage and coding policies are complex and updated frequently. Therefore, the customer should check with their local carriers or intermediaries often and should consult with legal counsel or a financial, coding or reimbursement specialist for any coding, reimbursement or billing questions or related issues. It is the responsibility of the provider to verify the appropriate frequency of billing for any applicable remote monitoring codes. This information is for reference purposes only. It is not provided or authorized for marketing use.

The Centers for Medicare & Medicaid Services (CMS) made significant changes to calendar year 2019 (CY 2019) policies and payment levels which impact a number of procedures utilizing Abbott's technology and therapy solutions in the Ambulatory Surgical Center (ASC) settings of care and Physician payments. These changes are compounded by the advance of both new and ongoing payment reform initiatives impacting a majority of U.S. health care facilities.

On November 2, 2019, CMS released the CY 2020 PFS Final Rule effective for services on January 1, 2020. We have provided the following tables for various technologies and procedures. This is intended for illustrative purposes only and is not a guarantee of reimbursement levels or coverage.

PERIPHERAL PROCEDURES

		PHYSICIAN PAYMENT	
CPT# CODE	CPT# DESCRIPTION	2020 FACILITY	2020 NON-FACILITY
37246	Transluminal balloon angioplasty (except lower extremity artery(ies) for occlusive disease, intracranial, coronary, pulmonary, or dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same artery; initial artery	\$365	\$2,106
37247	Transluminal balloon angioplasty (except lower extremity artery(ies) for occlusive disease, intracranial, coronary, pulmonary, or dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same artery; each additional artery (List separately in addition to code for primary procedure)	\$179	\$741
37248	Transluminal balloon angioplasty (except dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same vein; initial vein	\$312	\$1,549
37249	Transluminal balloon angioplasty (except dialysis circuit), open or percutaneous, including all imaging and radiological supervision and interpretation necessary to perform the angioplasty within the same vein; each additional vein (List separately in addition to code for primary procedure)	\$153	\$566
37220	Iliac revascularization	\$421	\$2,963
37221	Revascularization, endovascular, open or percutaneous, iliac artery, unilateral, initial vessel; with transluminal stent placement(s) , includes angioplasty within same vessel, when performed	\$519	\$4,012
37222	Revascularization, endovascular, open or percutaneous, iliac artery, each additional ipsilateral iliac vessel; with transluminal angioplasty (List separately in addition to code for primary procedure)	\$196	\$767
37223	Revascularization, endovascular, open or percutaneous, iliac artery, each additional ipsilateral iliac vessel; with transluminal stent placement(s) , includes angioplasty within the same vessel, when performed (List separately in addition to code for primary procedure)	\$223	\$1,965
37224	Revascularization, endovascular, open or percutaneous, femoral/popliteal artery(s), unilateral; with transluminal angioplasty	\$467	\$3,524
37225	Revascularization, endovascular, open or percutaneous, femoral/popliteal artery(s), unilateral; with atherectomy, includes angioplasty within the same vessel, when performed	\$633	\$11,582
37226	Revascularization, endovascular, open or percutaneous, femoral/popliteal artery(s), unilateral; with transluminal stent placement(s), includes angioplasty within the same vessel, when performed	\$546	\$10,286
37227	Revascularization, endovascular, open or percutaneous, femoral/popliteal artery(s), unilateral; with transluminal stent placement(s) and atherectomy, includes angioplasty within the same vessel, when performed	\$761	\$14,891
37228	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, initial vessel; with transluminal angioplasty	\$570	\$5,072
37229	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, initial vessel; with atherectomy , includes angioplasty within the same vessel, when performed	\$738	\$11,626

		PHYSICIAN PAYMENT	
CPT [†] CODE	CPT [†] DESCRIPTION	2020 FACILITY	2020 NON-FACILITY
37230	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, initial vessel; with transluminal stent placement(s) , includes angioplasty within the same vessel, when performed	\$734	\$10,457
37231	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, initial vessel; with transluminal stent placement(s) and atherectomy , includes angioplasty within the same vessel, when performed	\$795	\$14,476
37232	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel ; with transluminal angioplasty.	\$210	\$1,049
37233	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel ; with atherectomy , includes angioplasty within the same vessel, when performed.	\$342	\$1,288
37234	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel ; with transluminal stent placement(s) , includes angioplasty within the same vessel, when performed.	\$300	\$3,985
37235	Revascularization, endovascular, open or percutaneous, tibial/peroneal artery, unilateral, each additional vessel ; with transluminal stent placement(s) and atherectomy , includes angioplasty within the same vessel, when performed.	\$422	\$4,199
37241	Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural roadmapping, and imaging guidance necessary to complete the intervention; venous, other than hemorrhage (eg, congenital or acquired venous malformations, venous and capillary hemangiomas, varices, varicoceles)	\$458	\$5,059
37242	Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural roadmapping, and imaging guidance necessary to complete the intervention; arterial, other than hemorrhage or tumor (eg, congenital or acquired arterial malformations, arteriovenous malformations, arteriovenous fistulas, aneurysms, pseudoaneurysms)	\$500	\$7,824
37243	Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural roadmapping, and imaging guidance necessary to complete the intervention; for tumors, organ ischemia, or infarction	\$588	\$9,873
37244	Vascular embolization or occlusion, inclusive of all radiological supervision and interpretation, intraprocedural roadmapping, and imaging guidance necessary to complete the intervention; for arterial or venous hemorrhage or lymphatic extravasation	\$697	\$7,246
36140	Introduction of needle or intracatheter; extremity artery	\$94	\$493
36160	Introduction of needle or intracatheter, aortic, translumbar	\$130	\$562
36200	Introduction of catheter, aorta	\$147	\$608
36901	Introduction of needle(s) and/or catheter(s), dialysis circuit, with diagnostic angiography of the dialysis circuit, including inferior or superior vena cava;	\$177	\$712
36902	... with PTA, peripheral dialysis segment	\$250	\$1,335
36903	... with stent, peripheral dialysis segment	\$332	\$5,281
36904	Percutaneous transluminal mechanical thrombectomy and/or infusion for thrombolysis, dialysis circuit, any method, including all imaging and radiological supervision and interpretation, diagnostic angiography, fluoroscopic guidance, catheter placement(s), and intraprocedural thrombolytic injection(s);	\$388	\$1,976
36905	... with PTA, peripheral dialysis segment	\$465	\$2,481

		PHYSICIAN PAYMENT	
CPT [†] CODE	CPT [†] DESCRIPTION	2020 FACILITY	2020 NON-FACILITY
36906	... with stent, peripheral dialysis segment	\$537	\$6,556
36907	PTA, central dialysis segment	\$153	\$710
36908	Stent, central dialysis segment	\$217	\$2,152
36909	Dialysis circuit permanent vascular embolization or occlusion	\$210	\$2,051
34713	Percutaneous access and closure of femoral artery for delivery of endograft through a large sheath (12F or larger), including ultrasound guidance, when performed, unilateral	\$131	No separate payment

CPT[†] code 34713 is applicable only for aortic and iliac artery repair procedures using an endograft. This code cannot be used with other types of procedures such lower limb endovascular and TAVR procedures. This code is tied to physician payment only and will not result in any change to hospital payment. The code can be listed twice for bilateral procedures. This will result in a total payment of 150% of base payment rate (National Average Payment = \$197).

CORONARY PROCEDURES

		PHYSICIAN PAYMENT	
CPT+ CODE	CPT+ DESCRIPTION	2020 FACILITY	2020 NON-FACILITY
92920	Percutaneous transluminal coronary angioplasty ; single major coronary artery or branch	\$556	N/A
92924	Percutaneous transluminal coronary atherectomy , with coronary angioplasty when performed; single major coronary artery or branch	\$663	N/A
92928	Percutaneous transcatheter placement of intracoronary stent(s) , with coronary angioplasty when performed; single major coronary artery or branch	\$619	N/A
92929	Percutaneous transcatheter placement of intracoronary stent(s), with coronary angioplasty when performed; each additional branch of a major coronary artery	No separate payment	No separate payment
92933	Percutaneous transluminal coronary atherectomy , with intracoronary stent, with coronary angioplasty when performed; single major coronary artery or branch	\$694	N/A
92934	Percutaneous transluminal coronary atherectomy, with intracoronary stent, with coronary angioplasty when performed; each additional branch of a major coronary artery	No separate payment	No separate payment
92937	Percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; single vessel	\$618	N/A
92938	Percutaneous transluminal revascularization of or through coronary artery bypass graft (internal mammary, free arterial, venous), any combination of intracoronary stent, atherectomy and angioplasty, including distal protection when performed; each additional branch subtended by the bypass graft	No separate payment	No separate payment
92941	Percutaneous transluminal revascularization of acute total/subtotal occlusion during acute myocardial infarction, coronary artery or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty, including aspiration thrombectomy when performed, single vessel	\$695	N/A
92943	Percutaneous transluminal revascularization of chronic total occlusion , coronary artery, coronary artery branch or coronary artery bypass graft, any combination of intracoronary stent, atherectomy and angioplasty; single vessel	\$695	N/A
+93571	Intravascular Doppler velocity and/or pressure derived coronary flow reserve measurement (coronary vessel or graft) during coronary angiography, including pharmacologically induced stress; initial vessel	\$77	\$77
+93572	Intravascular Doppler velocity and/or pressure derived coronary flow reserve measurement (coronary vessel or graft) during coronary angiography, including pharmacologically induced stress; initial vessel; Each additional vessel	\$55	\$55
+92978	Endoluminal imaging of coronary vessel or graft optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention including imaging supervision, interpretation and report; initial vessel	\$99	\$99
+92979	Endoluminal imaging of coronary vessel or graft optical coherence tomography (OCT) during diagnostic evaluation and/or therapeutic intervention including imaging supervision, interpretation and report; initial vessel; Each additional vessel	\$80	\$80

+ = Indicates add-on code

Disclaimer

The information provided in this document was obtained from third-party sources and is subject to change without notice as a result of changes in reimbursement laws, regulations, rules, policies, and payment amounts. All content is informational only, general in nature, and does not cover all situations or all payers' rules and policies. It is the responsibility of the hospital or physician to determine appropriate coding for a particular patient and/or procedure. Any claim should be coded appropriately and supported with adequate documentation in the medical record. A determination of medical necessity is a prerequisite that Abbott Vascular assumes will have been made prior to assigning codes or requesting payments. Any codes provided are examples of codes that specify some procedures or which are otherwise supported by prevailing coding practices. They are not necessarily correct coding for any specific procedure using Abbott Vascular's products.

Hospitals and physicians should consult with appropriate payers, including Medicare Administrative Contractors, for specific information on proper coding, billing, and payment levels for healthcare procedures. Abbott Vascular makes no express or implied warranty or guarantee that (i) the list of codes and narratives in this document is complete or error-free, (ii) the use of this information will prevent difference of opinions or disputes with payers, (iii) these codes will be covered [or (iv) the provider will receive the reimbursement amounts set forth herein]. Reimbursement policies can vary considerably from one region to another and may change over time.

The FDA-approved/cleared labeling for all products may not be consistent with all uses described herein. This document is in no way intended to promote the off-label use of medical devices. The content is not intended to instruct hospitals and/or physicians on how to use medical devices or bill for healthcare procedures.
