CODING AND REIMBURSEMENT FOR GUIDE FOR CORONARY PROCEDURES, FRACTIONAL FLOW RESERVE (FFR) AND OPTICAL COHERENCE TOMOGRAPHY (OCT)

Effective January 1, 2019

Introduction

The Coronary procedures, Fractional Flow Reserve (FFR) and Optical Coherence Tomography (OCT) Coding Guide is intended to provide coding and reimbursement information, reference material related to general information related to the reimbursement of the Coronary procedures, Fractional Flow Reserve (FFR) and Optical Coherence Tomography (OCT) procedures when used consistently with the product's labeling.

Reimbursement Hotline

In addition, Abbott offers a reimbursement hotline, which provides live coding and reimbursement information from dedicated reimbursement specialists. Coding and reimbursement support is available from 8 a.m. to 5 p.m. Central Time, Monday through Friday at (855) 569-6430. This guide and all supporting documents are available at https://www.sjm.com/en/professionals/resources-and-reimbursement. Coding and reimbursement assistance is provided subject to the disclaimers set forth in this guide.

Disclaimer

This document and the information contained herein is for general information purposes only and is not intended and does not constitute legal, reimbursement, coding, business or other advice. Furthermore, it is not intended to increase or maximize payment by any payer. Nothing in this document should be construed as a guarantee by Abbott regarding levels of reimbursement, payment or charge, or that reimbursement or other payment will be received. Similarly, nothing in this document should be viewed as instructions for selecting any particular code. The ultimate responsibility for coding and obtaining payment/reimbursement remains with the customer. This includes the responsibility for accuracy and veracity of all coding and claims submitted to third-party payers. Also note that the information presented herein represents only one of many potential scenarios, based on the assumptions, variables and data presented. In addition, the customer should note that laws, regulations, coverage and coding policies are complex and updated frequently. Therefore, the customer should check with their local carriers or intermediaries often and should consult with legal counsel or a financial, coding or reimbursement specialist for any coding, reimbursement or billing questions or related issues. This information is for reference purposes only. It is not provided or authorized for marketing use.

CODING AND REIMBURSEMENT FOR CORONARY PROCEDURES

| C1876 | Stent, noncoated/noncovered, with delivery system | | | |

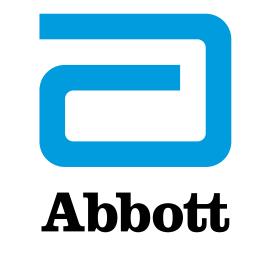

ICD-10-CM Diagnosis Codes⁴

Diagnosis codes are used by both hospitals and physicians to document the indication for the procedure. For Fractional Flow Reserve (FFR) and Optical Coherance Tomography (OCT) patients, there are many possible diagnosis code scenarios and a wide variety of possible combinations. The possible scenarios and combinations are too numerous to capture in this document. The customer should check with their local carriers or intermediaries and should consult with legal counsel or a financial, coding or reimbursement specialist for coding, reimbursement or billing questions related to ICD-10-CM diagnosis codes.
