ELECTROPHYSIOLOGY CODING GUIDE

Hospital Inpatient

Effective October 1, 2026 to September 30, 2027

Hospital Outpatient, Ambulatory Surgical Center, Physician

Effective January 1, 2026 to December 31, 2026

OVERVIEW

The Electrophysiology Coding Guide is intended to provide reference material related to general guidelines for the reimbursement of the Electrophysiology procedures when used consistently with the products' labeling. This guide includes information regarding coverage, coding and payment.

DISCLAIMER

This material and the information contained herein is for general information purposes only and is not intended, and does not constitute, legal, reimbursement, business, clinical, or other advice. Furthermore, it is not intended to and does not constitute a representation or guarantee of reimbursement, payment, or charge, or that reimbursement or other payment will be received. It is not intended to increase or maximize payment by any payer. Abbott makes no express or implied warranty or guarantee that the list of codes and narratives in this document is complete or error-free. Similarly, nothing in this document should be viewed as instructions for selecting any particular code, and Abbott does not advocate or warrant the appropriateness of the use of any particular code. The ultimate responsibility for coding and obtaining payment/reimbursement remains with the customer. This includes the responsibility for accuracy and veracity of all coding and claims submitted to third-party payers. In addition, the customer should note that laws, regulations, and coverage policies are complex and are updated frequently, and, therefore, the customer should check with its local carriers or intermediaries often and should consult with legal counsel or a financial, coding, or reimbursement specialist for any questions related to coding, billing, reimbursement, or any related issues. This material reproduces information for reference purposes only. It is not provided or authorized for marketing use.

IMPORTANT NOTE

Medicare participation varies by provider. The payment rates shown are the National Medicare payment rates. Reimbursement listed may not apply to all institutions despite Medicare participation.

For FY 2026, cases utilizing the Volt™ PFA catheter performed in a hospital inpatient setting (ICD-10-PCS 02583ZF) are eligible for a New Technology Add-on Payment (NTAP), an additional reimbursement from Medicare (Fee for Service cases only). When reported costs exceed the MS-DRG payment, 65% of the excess cost is reimbursed, up to a maximum of \$6,337.50.

INPATIENT ONLY PROCEDURE

The LAAC procedure is designated by CMS as an Inpatient Only Procedure. Consequently, Medicare's two-midnight rule does not apply. In addition, there is not a designated APC payment for the LAAC procedure or a C-Code for the LAAC device. For commercial payers who may request LAAC be done in the outpatient setting, consult with the payer regarding relevant billing instructions and reimbursement.¹
