2026–2027 ACADEMIC YEAR

CARDIOLOGY FELLOWS COURSES

The Academic Development department is committed to enhancing the training experience for fellows in the cardiovascular disease disciplines. Our premier educational programs allow the learned concepts to be applied for immediate impact on patient care, as well as incorporated into long-term healthcare strategies. We have engaged global thought leaders to create our “By Physicians, For Physicians” curriculum with a focus on our technologies. The content progresses with you from cardiology training through electrophysiology training and has both in person and online offerings. We look forward to having you join us on this educational mission.

IN-PERSON COURSES

- ECG Interpretation of Cardiac Arrhythmias and Abnormalities**
3–5 December 2026
Brussels, Belgium

- Implantable Cardiac Devices: A Hands-On Workshop**

2026–2027 ACADEMIC YEAR

ELECTROPHYSIOLOGY FUNDAMENTALS FELLOWS CURRICULUM

The EP Fundamentals curriculum is designed to support fellows during their first year of training in electrophysiology (EP). **Commitment to attend each session of the eight month program is required.**

By participating in the entire curriculum, attendees unlock the program's full value — building essential skills, growing confidence and forming lasting connections in EP.

THE CURRICULUM INCLUDES:

- **Hands-On Learning:** Attendees will have extensive hands-on learning opportunities through the use of advanced simulators
- **Case Study Application:** Faculty will present clinical content through real-world, patient-based case studies
- **Online Meetings:** Monthly, faculty-led webinars will examine key disease states through interactive, case-based discussions
