

# PRE-IMPLANT INSTRUCT™ PATIENT EDUCATION PATHWAY CARDIOMEMS™ HF SYSTEM

## DIRECT-TO-PATIENT EDUCATION

- Convenient text message format
- Simple-to-understand video messages
- Designed for patients and caregivers
- Messages are stored to support repeat viewing

## CARDIOMEMS™ HF SYSTEM PRE-IMPLANT EDUCATION PATHWAY

**DAY 0** Welcome Message: At this time, patients can choose if they want to learn about heart failure first or if they want to go straight into watching educational videos about the CardioMEMS™ HF System.

**DAY 0** What Is Heart Failure?

**DAY 0** How Does Heart Failure Progress?

**DAY 1** What Are the Symptoms of Heart Failure?

**DAY 1** What Are the Treatment Options for Heart Failure?

**DAY 3** What Is the CardioMEMS HF System?

**DAY 4** How Can the CardioMEMS HF System Help?

**DAY 5** What Is the Procedure Like for Getting a CardioMEMS™ PA Sensor?

**DAY 6** How to Take a Reading With the CardioMEMS™ Patient Electronics System?

**DAY 7** What Do Patients Who Have a CardioMEMS HF System Have to Say About It?

**DAY 8** What Do I Need to Do Before My Procedure?

**DAY 9** Satisfaction Survey on the Text Message Educational Series

**DAY 30** Did You Have Your CardioMEMS PA Sensor Procedure Yet?

①

Patient is identified as a candidate for the CardioMEMS HF System

②

**PRE-IMPLANT** enrollment instructions are provided to the patient/caregiver

③

Patient/caregiver enrolls, and education begins immediately

**TO ENROLL A PATIENT AND/OR CAREGIVER**, provide them with the automated education postcard and instruct them to either scan the QR code or text **LEARN** to **1-844-HEART-34** (1-844-432-7834). They will receive one message daily for 10 days.

**A DEMO SITE IS AVAILABLE** for clinicians to review the pathway. Scan the QR code or text **PRE** to **737-204-2099**.

Remember that, in the demo environment, you will receive all the messages in 10 minutes, but patients will only receive the messages on the days outlined in the pathway.

**Brief Summary:** Prior to using these devices, please review the Instructions for Use for a complete listing of indications, contraindications, warnings, precautions, potential adverse events and directions for use.

**CardioMEMS™ HF System Indications and Usage:** The CardioMEMS™ HF System is indicated for wirelessly measuring and monitoring pulmonary artery pressure and heart rate in NYHA Class II or III heart failure patients who either have been hospitalized for heart failure in the previous year and/or have elevated natriuretic peptides. The hemodynamic data are used by physicians for heart failure management with the goal of controlling pulmonary artery pressures and reducing heart failure hospitalizations.

**CardioMEMS™ HF System Contraindications:** The CardioMEMS HF System is contraindicated for patients with an inability to take dual antiplatelet or anticoagulants for one month post implant.

**CardioMEMS™ HF System Potential Adverse Events:** Potential adverse events associated with the implantation procedure include, but are not limited to, the following: air embolism, allergic reaction, infection, delayed wound healing, arrhythmias, bleeding, hemoptysis, hematoma, nausea, cerebrovascular accident, thrombus, cardiovascular injury, myocardial infarction, death, embolization, thermal burn, cardiac perforation, pneumothorax, thoracic duct injury and hemothorax.
