The Services allow the Clinic to remotely gather certain information about the Patient's Device from the Clinic's location and, where offered and approved, may allow Users to remotely adjust a Patient's Device.

Services are not health services directly used by Patients, and we are not a provider or supplier of any health care services. YOU SHOULD INSTRUCT YOUR PATIENTS TO CALL YOU OR LOCAL EMERGENCY SERVICES IF THEY SUSPECT THEY MAY HAVE A MEDICAL EMERGENCY. Our technical support personnel are not authorized to tell the Clinic's Patients about the substance, meaning, or possible consequences of any Data transmitted from the Patient or their Device.

The Services may be limited from time to time, and we cannot guarantee that the Services will be available at all times. To the extent permitted by applicable law in no event will we be liable to the Clinic (or the Clinic's patients, employees, contractors, agents or users) for any indirect, special, consequential or pure economic losses, costs, damages, charges or expenses of any kind arising out of or in connection with this Agreement (whether in warranty, contract or tort, including negligence, or product liability even if informed about the possibility thereof), including without limitation medical expenses, legal fees, loss of revenue or profits (whether direct or indirect), loss or interruption of business, loss of goodwill, loss of anticipated savings, loss of use, or loss or corruption of Data or information. hereunder, whether in contract, tort (including negligence or breach of statutory duty), misrepresentation, restitution or otherwise shall be limited to fixing, repairing or otherwise rectifying any Service faults, even if any such loss was foreseeable or contemplated by the Parties, or where applicable, shall not exceed the greater of the amount actually paid by the Clinic for the Services, USD\$10.00 or the equivalent amount in the Clinic's jurisdiction.

In no event will we be liable to the Clinic (or the Clinics patients, employees, contractors, agents or users) for any losses, costs, damages, charges or expenses resulting from loss, misappropriation, unauthorized access to or modification of Data by any third party, or from mistakes, omissions or delays in transmission of information, or from interruptions in telecommunications connections to the Service, viruses or failures of performance or from the impact of the Services on your information or communications systems, for interception or compromise of the Services, including without limitation the network services or any record or other communication provided by you, any Patient or by us under this Agreement.

Nothing in this Agreement limits or excludes liability for death or personal injury resulting from negligence or for any damage or liability incurred as a result of our fraud or fraudulent misrepresentation or intentional misconduct or blatant gross negligence.

21. Indemnities: We will indemnify the Clinic against any third party claim or action alleging an infringement of their patent, copyright, trademark, trade secret, or other intellectual property or proprietary right arising out of your receipt of the Services in accordance with this Agreement. As a condition of this protection, the Clinic must give us prompt written notice of the action or claim, give us the right to choose legal representation and control the defence, and fully cooperate with us in the defence of any such claim or action.

If any administrative, regulatory, or other third party legal action is brought against us, our employees, agents, or representatives, resulting in any fine, award of damages, or other costs (including legal fees and court costs) for a breach of your obligations and requirements under this Agreement, you agree to indemnify us for any such costs.

The indemnified party will have the right to defend or settle and/or to select legal representation and the indemnifying party shall provide all reasonable assistance, at your expense.

You agree that monetary damages may not provide us with a sufficient remedy for violations of this Agreement and you consent to injunctive or other equitable relief for such violations. A printed version of this Agreement and of any related notice given in electronic form shall be admissible in judicial or administrative proceedings based upon or relating to this Agreement to the same extent and subject to the same conditions as other business documents and records originally generated and maintained in printed form.

We understand that persons and entities under contract to you may perform certain administrative services on your behalf under this Agreement.

26. Benefit of the parties: You and we specifically intend that you and we are the only beneficiaries of this Agreement. No Patient or other person or entity who is not a third party to this Agreement shall have any rights under or in connection with this Agreement, unless otherwise entitled by law. A person who is not a party (other than, where applicable, their successors and permitted assigns) to this Agreement shall not have any rights under the Contracts (Rights of Third Parties) Act 1999 to enforce any term of this Agreement, but this does not affect any right or remedy of a third party which exists, or is available, apart from that Act.

27. Surviving terms: Any part or promise of this Agreement that would, by its practical nature, survive the termination of this Agreement, will survive.

28. Intervening forces: If a party is prevented from performing either its obligations or its purposes under this Agreement due to causes beyond its control, including but not limited to, an act of God, public enemy, war, riot, disaster, storm, earthquake, other natural forces, by government order, decree or advisory, by public emergency, strike, significant curtailment of transportation systems or communications utilities, or by the intentional acts of anyone not a party to this Agreement, then that party, upon written notice to the other, will be excused from that performance for the reasonable duration of that event.

29. Waiver: If either party waives any breach of this Agreement, it will not be considered a waiver of any other breach of this Agreement. Our failure to insist on strict performance of any of the terms and conditions of this Agreement will not operate as a waiver by us of that or any subsequent default or failure of performance.

30. Severability: If, for any reason, a court with proper jurisdiction holds that any part of this Agreement is invalid or cannot be enforced, all other parts will remain in effect. The invalid or unenforceable part will be reformed only to the extent necessary to make it valid and enforceable.

31. Reservation of rights in services: Subject to the limited rights expressly granted hereunder, we reserve all rights, title and interest in and to the Services, including all related intellectual property rights. No rights are granted to you other than as expressly set forth herein.

MERLIN.NET™ PATIENT CARE NETWORK DATA PROCESSING AGREEMENT

Effective Date: July 2023

INCORPORATING THE EUROPEAN COMMISSION STANDARD CONTRACTUAL CLAUSES BETWEEN CONTROLLERS AND PROCESSORS UNDER ARTICLE 28(7) OF THE GDPR UNDER DECISION (EU) 2021/915 OF 4 JUNE 2021

These Clauses form part of the Merlin.net™ PCN Agreement (“**Agreement**”) that governs the provision of Services (as defined in the Agreement) to the controller and only apply when the processor is processing personal data on behalf of the controller. The controller acknowledges that processor is subject to EU and EU Member State laws relating to medical devices, which requires it to process certain personal data as a controller to comply with such laws, in particular for post-market surveillance, medical device quality management including product development and improvement, safety, performance and vigilance. The processor reserves the right to verify that any request for portability has arisen from a data subject rather than the controller.

SECTION I

Clause 1

Purpose and scope

- (a) The purpose of these Standard Contractual Clauses (the Clauses) is to ensure compliance with Article 28(3) and (4) of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data.
- (b) The controllers and processors listed in Annex I have agreed to these Clauses in order to ensure compliance with Article 28(3) and (4) of Regulation (EU) 2016/679 and/or Article 29 (3) and (4) Regulation (EU) 2018/1725.
- (c) These Clauses apply to the processing of personal data as specified in Annex II.
- (d) Annexes I to IV are an integral part of the Clauses.
- (e) These Clauses are without prejudice to obligations to which the controller is subject by virtue of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.
- (f) These Clauses do not by themselves ensure compliance with obligations related to international transfers in accordance with Chapter V of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.

Clause 2

Invariability of the Clauses

- (a) The Parties undertake not to modify the Clauses, except for adding information to the Annexes or updating information in them.
- (b) This does not prevent the Parties from including the standard contractual clauses laid down in these Clauses in a broader contract, or from adding other clauses or additional safeguards provided that they do not directly or indirectly contradict the Clauses or detract from the fundamental rights or freedoms of data subjects.

Clause 3

Interpretation

- (a) Where these Clauses use the terms defined in Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively, those terms shall have the same meaning as in that Regulation.
- (b) These Clauses shall be read and interpreted in the light of the provisions of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725 respectively.
- (c) These Clauses shall not be interpreted in a way that runs counter to the rights and obligations provided for in Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or in a way that prejudices the fundamental rights or freedoms of the data subjects.

Clause 4

Hierarchy

In the event of a contradiction between these Clauses and the provisions of related agreements between the Parties existing at the time when these Clauses are agreed or entered into thereafter, these Clauses shall prevail.

Clause 5

Docking clause

- (a) Any entity that is not a Party to these Clauses may, with the agreement of all the Parties, accede to these Clauses at any time as a controller or a processor by completing the Annexes and signing Annex I.
- (b) Once the Annexes in (a) are completed and signed, the acceding entity shall be treated as a Party to these Clauses and have the rights and obligations of a controller or a processor, in accordance with its designation in Annex I.
- (c) The acceding entity shall have no rights or obligations resulting from these Clauses from the period prior to becoming a Party.

SECTION II – OBLIGATIONS OF THE PARTIES

Clause 6

Description of processing(s)

The details of the processing operations, in particular the categories of personal data and the purposes of processing for which the personal data is processed on behalf of the controller, are specified in Annex II.

Clause 7

Obligations of the Parties

7.1. Instructions

- (a) The processor shall process personal data only on documented instructions from the controller, unless required to do so by Union or Member State law to which the processor is subject. In this case, the processor shall inform the controller of that legal requirement before processing, unless the law prohibits this on important grounds of public interest. Subsequent instructions may also be given by the controller throughout the duration of the processing of personal data. These instructions shall always be documented.
- (b) The processor shall immediately inform the controller if, in the processor's opinion, instructions given by the controller infringe Regulation (EU) 2016/679 / Regulation (EU) 2018/1725 or the applicable Union or Member State data protection provisions.

7.2. Purpose limitation

The processor shall process the personal data only for the specific purpose(s) of the processing, as set out in Annex II, unless it receives further instructions from the controller.

7.3. Duration of the processing of personal data

Processing by the processor shall only take place for the duration specified in Annex II.

7.4. Security of processing

- (a) The processor shall at least implement the technical and organisational measures specified in Annex III to ensure the security of the personal data. This includes protecting the data against a breach of security leading to accidental or unlawful destruction, loss, alteration, unauthorised disclosure or access to the data (personal data breach). In assessing the appropriate level of security, the Parties shall take due account of the state of the art, the costs of implementation, the nature, scope, context and purposes of processing and the risks involved for the data subjects.
- (b) The processor shall grant access to the personal data undergoing processing to members of its personnel only to the extent strictly necessary for implementing, managing and monitoring of the contract. The processor shall ensure that persons authorised to process the personal data received have committed themselves to confidentiality or are under an appropriate statutory obligation of confidentiality.

7.5. Sensitive data

If the processing involves personal data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, or trade union membership, genetic data or biometric data for the purpose of uniquely identifying a natural person, data concerning health or a person's sex life or sexual orientation, or data relating to criminal convictions and offences ("sensitive data"), the processor shall apply specific restrictions and/or additional safeguards.

7.6 Documentation and compliance

- (a) The Parties shall be able to demonstrate compliance with these Clauses.
- (b) The processor shall deal promptly and adequately with inquiries from the controller about the processing of data in accordance with these Clauses.
- (c) The processor shall make available to the controller all information necessary to demonstrate compliance with the obligations that are set out in these Clauses and stem directly from Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725. At the controller's request, the processor shall also permit and contribute to audits of the processing activities covered by these Clauses, at reasonable intervals or if there are indications of non-compliance. In deciding on a review or an audit, the controller may take into account relevant certifications held by the processor.
- (d) The controller may choose to conduct the audit by itself or mandate an independent auditor. Audits may also include inspections at the premises or physical facilities of the processor and shall, where appropriate, be carried out with reasonable notice.
- (e) The Parties shall make the information referred to in this Clause, including the results of any audits, available to the competent supervisory authority/ies on request.

7.7. Use of sub-processors

- (a) The processor has the controller's general authorisation for the engagement of sub-processors from an agreed list. The processor shall specifically inform in writing the controller of any intended changes of that list through the addition or replacement of sub-processors at least 90 days in advance, thereby giving the controller sufficient time to be able to object to such changes prior to the engagement of the concerned sub-processor(s). The processor shall provide the controller with the information necessary to enable the controller to exercise the right to object.
- (b) Where the processor engages a sub-processor for carrying out specific processing activities (on behalf of the controller), it shall do so by way of a contract which imposes on the sub-processor,

in substance, the same data protection obligations as the ones imposed on the data processor in accordance with these Clauses. The processor shall ensure that the sub-processor complies with the obligations to which the processor is subject pursuant to these Clauses and to Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725.

- (c) At the controller's request, the processor shall provide a copy of such a sub-processor agreement and any subsequent amendments to the controller. To the extent necessary to protect business secret or other confidential information, including personal data, the processor may redact the text of the agreement prior to sharing the copy.
- (d) The processor shall remain fully responsible to the controller for the performance of the sub-processor's obligations in accordance with its contract with the processor. The processor shall notify the controller of any failure by the sub-processor to fulfil its contractual obligations.
- (e) The processor shall agree a third party beneficiary clause with the sub-processor whereby - in the event the processor has factually disappeared, ceased to exist in law or has become insolvent - the controller shall have the right to terminate the sub-processor contract and to instruct the sub-processor to erase or return the personal data.

7.8. International transfers

- (a) Any transfer of data to a third country or an international organisation by the processor shall be done only on the basis of documented instructions from the controller or in order to fulfil a specific requirement under Union or Member State law to which the processor is subject and shall take place in compliance with Chapter V of Regulation (EU) 2016/679 or Regulation (EU) 2018/1725.
- (b) The controller agrees that where the processor engages a sub-processor in accordance with Clause 7.7. for carrying out specific processing activities (on behalf of the controller) and those processing activities involve a transfer of personal data within the meaning of Chapter V of Regulation (EU) 2016/679, the processor and the sub-processor can ensure compliance with Chapter V of Regulation (EU) 2016/679 by using standard contractual clauses adopted by the Commission in accordance with of Article 46(2) of Regulation (EU) 2016/679, provided the conditions for the use of those standard contractual clauses are met.

Clause 8

Assistance to the controller

- (a) The processor shall promptly notify the controller of any request it has received from the data subject. It shall not respond to the request itself, unless authorised to do so by the controller.
- (b) The processor shall assist the controller in fulfilling its obligations to respond to data subjects' requests to exercise their rights, taking into account the nature of the processing. In fulfilling its obligations in accordance with (a) and (b), the processor shall comply with the controller's instructions
- (c) In addition to the processor's obligation to assist the controller pursuant to Clause 8(b), the processor shall furthermore assist the controller in ensuring compliance with the following obligations, taking into account the nature of the data processing and the information available to the processor:
 - (1) the obligation to carry out an assessment of the impact of the envisaged processing operations on the protection of personal data (a 'data protection impact assessment') where a type of processing is likely to result in a high risk to the rights and freedoms of natural persons;
 - (2) the obligation to consult the competent supervisory authority/ies prior to processing where a data protection impact assessment indicates that the processing would result in a high risk in the absence of measures taken by the controller to mitigate the risk;
 - (3) the obligation to ensure that personal data is accurate and up to date, by informing the controller without delay if the processor becomes aware that the personal data it is processing is inaccurate or has become outdated; and

- (4) the obligations in Article 32 Regulation (EU) 2016/679.
- (d) The Parties shall set out in Annex III the appropriate technical and organisational measures by which the processor is required to assist the controller in the application of this Clause as well as the scope and the extent of the assistance required.

Clause 9

Notification of personal data breach

In the event of a personal data breach, the processor shall cooperate with and assist the controller for the controller to comply with its obligations under Articles 33 and 34 Regulation (EU) 2016/679 or under Articles 34 and 35 Regulation (EU) 2018/1725, where applicable, taking into account the nature of processing and the information available to the processor.

9.1 Data breach concerning data processed by the controller

In the event of a personal data breach concerning data processed by the controller, the processor shall assist the controller:

- (a) in notifying the personal data breach to the competent supervisory authority/ies, without undue delay after the controller has become aware of it, where relevant/(unless the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons);
- (b) in obtaining the following information which, pursuant to Article 33(3) Regulation (EU) 2016/679, shall be stated in the controller's notification, and must at least include:
 - (1) the nature of the personal data including where possible, the categories and approximate number of data subjects concerned and the categories and approximate number of personal data records concerned;
 - (2) the likely consequences of the personal data breach; and
 - (3) the measures taken or proposed to be taken by the controller to address the personal data breach, including, where appropriate, measures to mitigate its possible adverse effects.

Where, and insofar as, it is not possible to provide all this information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay; and

- (c) in complying, pursuant to Article 34 Regulation (EU) 2016/679, with the obligation to communicate without undue delay the personal data breach to the data subject, when the personal data breach is likely to result in a high risk to the rights and freedoms of natural persons.

9.2 Data breach concerning data processed by the processor

In the event of a personal data breach concerning data processed by the processor, the processor shall notify the controller without undue delay after the processor having become aware of the breach. Such notification shall contain, at least:

- (a) a description of the nature of the breach (including, where possible, the categories and approximate number of data subjects and data records concerned);
- (b) the details of a contact point where more information concerning the personal data breach can be obtained; and
- (c) its likely consequences and the measures taken or proposed to be taken to address the breach, including to mitigate its possible adverse effects.

Where, and insofar as, it is not possible to provide all this information at the same time, the initial notification shall contain the information then available and further information shall, as it becomes available, subsequently be provided without undue delay.

The Parties shall set out in Annex III all other elements to be provided by the processor when assisting the controller in the compliance with the controller's obligations under Articles 33 and 34 of Regulation (EU) 2016/679.

- (a) Without prejudice to any provisions of Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725, in the event that the processor is in breach of its obligations under these Clauses, the controller may instruct the processor to suspend the processing of personal data until the latter complies with these Clauses or the contract is terminated. The processor shall promptly inform the controller in case it is unable to comply with these Clauses, for whatever reason.
- (b) The controller shall be entitled to terminate the contract insofar as it concerns processing of personal data in accordance with these Clauses if:
 - (1) the processing of personal data by the processor has been suspended by the controller pursuant to point (a) and if compliance with these Clauses is not restored within a reasonable time and in any event within one month following suspension;
 - (2) the processor is in substantial or persistent breach of these Clauses or its obligations under Regulation (EU) 2016/679 and/or Regulation (EU) 2018/1725; or

- (d) Following termination of the contract, the processor shall, at the choice of the controller, delete all personal data processed on behalf of the controller and certify to the controller that it has done so, or, return all the personal data to the controller and delete existing copies unless Union or Member State law requires storage of the personal data. Security Measures

Abbott has implemented the following technical and organisational security measures to ensure the ongoing confidentiality, integrity, availability and resilience of its processing systems and services:

1. Physical access control of processing areas (confidentiality):

Steps taken by Abbott's industry-leading cloud service provider to prevent unauthorized access to data processing equipment (for example, telephones, database and application servers, and associated hardware) in which personal data is processed include the following appropriate measures:

- (i) Merlin.net assets are housed within two ISO/IEC 27001:2013 certified computer data centres;
- (ii) Data centres are monitored around the clock by security guards and/or security cameras and other sensors that can detect and track unauthorized persons;

- (iii) Physical access to facilities, including data centres, is granted based on job responsibility and requires management approval;
- (iv) Visitors sign a visitor log prior to entry and must be escorted by Abbott personnel at all times; and
- (v) Physical access rights and authentication controls (for example, card readers) at entry and exit points are implemented, documented and regularly checked.

2. Access control to data processing systems (confidentiality):

Abbott takes appropriate measures to prevent its data processing systems from being used by unauthorized persons. This is achieved by:

- (i) Multi-factor authentication;
- (ii) Restricting access to services through encryption, signature algorithms and secure certificates;
- (iii) Storing data on a secure database that uses disk-level encryption;
- (iv) Using industry standard encryption and password requirements (for example, minimum length, use of special characters, expiration and so on); and
- (v) Locking access following unsuccessful login attempts or inactivity and having a method to reset locked access identifiers.

3. Access control for the use of certain areas of data processing systems by authorized Abbott personnel (confidentiality):

Abbott personnel authorized to use data processing systems may only access personal data where they have sufficient access authorisation. To this end, Abbott has implemented the following controls:

- (i) Access is restricted on the basis of roles and responsibilities and is granted to users in accordance with need-to-know and least-privilege principles;
- (ii) Privileged access is granted to authorized administrators, in line with job responsibilities;
- (iii) Access rights are reviewed periodically to ensure that correct access rights are granted;
- (iv) When roles and responsibilities change, access rights are removed, even in the event of termination; and
- (v) Effective disciplinary action against individuals who access personal data without authorization.

4. Clinic setup and security:

Abbott's Remote Care Operations group is responsible for the initial setup of clinics upon enrolment. One clinic administrator account is provided for the purpose of creating, administering and maintaining user IDs. Clinic users, including administrators, are responsible for protecting their Merlin.net credentials. The following controls are implemented:

- (i) Clinicians are restricted from directly accessing the database and infrastructure supporting Merlin.net;
- (ii) For support and troubleshooting purposes, authorized Abbott personnel utilise a designated administrative account.
- (iii) Minimum default password parameter configurations are established; and
- (iv) Merlin.net offers two-factor authentication, which customers may elect to implement.

5. Transfer control (integrity):

Abbott takes steps to prevent personal data from being read, copied, altered or deleted by unauthorized persons during its transmission or transfer. This is achieved by:

- (i) The transfer of data from external sources to Merlin.net infrastructure is encrypted;
- (ii) Servers use secure network connectivity that is restricted to HTTPS only; and
- (iii) Policies and standards are in place to restrict the use of removable media for transportation purposes and on corporate laptops or other mobile devices.

6. Input control (integrity):

Abbott does not access personal data for any purposes other than those set out in the Merlin.net™ PCN Agreement and the Data Processing Agreement (**DKA**).

Abbott takes appropriate measures to protect personal data against unauthorized access or deletion. This is achieved by:

- (i) Protective measures for reading, changing and deleting stored data;
- (ii) Documentation to control which persons are authorized and responsible for making entries into data processing systems on the basis of their tasks; and
- (iii) Protocols that require the logging of possible entries and / or deletions of personal data.

7. Order control:

Abbott takes steps to ensure that, where personal data is processed, it is processed strictly in accordance with your instructions. This is achieved by:

(i) Clear instructions to Abbott on the scope of required personal data processing as set out in the Agreement and this DPA.

8. Availability control (availability):

Abbott takes steps to ensure that personal data is protected from accidental destruction or loss. This is achieved by:

- (i) Regular data backups and periodic restores;
- (ii) Backup logs are monitored and escalation protocols exist in case of a critical failure;
- (iii) Use of anti-virus/anti-malware software to protect against malicious threats such as viruses, worms and spyware;
- (iv) Conducting internal and external vulnerability scans on a regular basis; and
- (v) Implementation of a Business Continuity Plan, which includes an IT Disaster Recovery Plan, listing the roles, tasks and responsibilities.

9. Separation of processing for different purposes:

Abbott takes steps to ensure that personal data is protected from accidental destruction or loss. This is achieved by:

- (i) Ensuring database-driven security by separating production and support and system monitoring databases; and
- (ii) Designing interfaces, batch processes, and reports for specific purposes and functions only, so data collected for specific purposes is processed separately.

10. Resilience:

Abbott has implemented the following technical and organisational security measures, in particular to ensure the reliability of our processing systems and services:

- (i) Data protection management policies and procedures;
- (ii) Incident response policies and procedures;
- (iii) Data protection-friendly pre-settings (under Article 25(1)) of Regulation (EU) 2016/679; and
- (iv) Order control.
