TERMS AND CONDITIONS

Estimates shown are for illustrative purposes only. This content is not intended for any other purpose. Estimates may be based upon several sources, included but not limited to: primary sources, scientific literature, commercially available data sets, data/inputs provided by the customer, and various external sources.

It should be noted that there are usually differences between modelling estimates and actual results. Abbott does not take responsibility for any such discrepancies. There is no guarantee of any potential economic outcome, including payment, cost savings, or procedure volume. Estimates are modelled using the Medicare Prospective Payment System fee schedule.

Certain Maryland hospitals paid under Maryland Waiver provisions using All Patients Refined Diagnosis Related Groups (APR-DRG) are excluded from payment under the Inpatient Prospective Payment System (IPPS). Providers using any other Medicare payment system are also excluded from this model.

Abbott may not provide Vermont Health Care Providers with any item of value at no-charge unless it is listed in the Vermont statute. Vermont does not list reimbursement or technical support services as items that may be provided. Abbott considers basic coding, coverage and reimbursement information related to procedures involving Abbott products to be “educational items” that are permissible under the Vermont statute. This reimbursement lookup is considered an educational item that is permissible under the Vermont statute.

This information is expressly not to be distributed to third parties. A provider may only receive their own information. Provider data may not be shared to other entities.
