CARDIOGUIDE™ HF APP

SENSITIVE PERSONAL DATA CONSENT

By clicking "**Accept**", I explicitly consent to the collection and processing of my personal data, including health-related data (which is considered sensitive data under local data protection legislation), to enable Abbott to provide the Services and the App including transmission to the healthcare provider, technical and clinical support for the Services (e.g., debugging, upgrading, and troubleshooting), and creation of aggregated, anonymized, or de-identified data from my health-related data. In the course of providing support, your personal data (including health-related data) may be accessible by Abbott's remote care teams located in the United States of America and Belgium (or other European locations).

This consent is voluntary. You may withdraw consent at any time within the App or by contacting Abbott at privacy@abbott.com.

If you do not provide this consent, or withdraw your consent, you may lose access to the App and may not be able to receive the Services as Abbott must be able to support the App for safety and operational purposes.
